

Fung Xue Feng

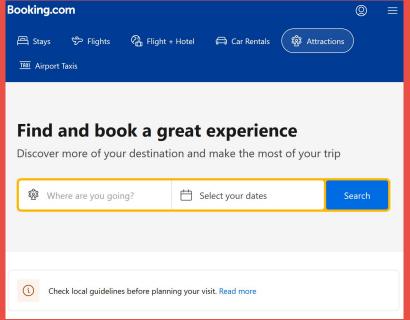

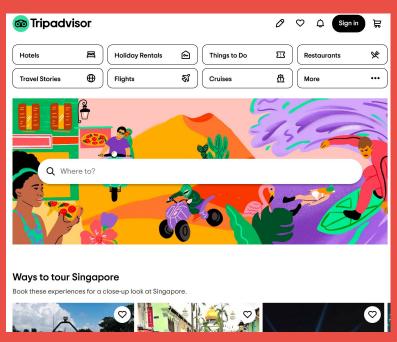

CURRENT COMPETITORS

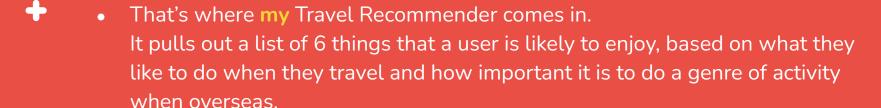

PROBLEM STATEMENT

What if, the user has not decided where to go?
 Or prefers to choose based on their hobby(ies) or interest(s)?

PROJECT GOALS

1. To achieve accurate recommendations based on user's selection of categories of activities they would like to do, especially for new users (cold start issue)

2. Incorporate sentiment analysis of reviews to modelling - feature engineering

MODELLING (Base - Cosine Similarity)

Cosine similarity model (Content-Based)

Banff Day Trip From Calgary		
Fatbike Frozen Waterfall Tour	0.9354	
Banff national park tour with a small group	0.9354	
Triple c adventure	0.9258	
Summer tour to lake louise, moraine lake & yoho national park from calgary	0.9258	
Calgary and banff mountain biking adventure	0.8819	
Banff national park summer tour from calgary	0.8571	
Calgary, banff (in-depth), jasper & yoho national parks tour from calgary	0.8571	
High spirits adventure	0.8571	
Jasper city sightseeing tour	0.8571	
Banff national park, cave & basin national historic site tour from calgary	0.8571	

USER REVIEWS

- Venting frustrations (Negative Experience)
- Praising the company, wanting to give back (Positive Experience)
- 75% of people trust a business after seeing a positive review
- 95% of all travellers read online reviews before booking
- 97% of consumers report that the customer reviews they read influence their purchasing decisions.

NLP - User Reviews

Hugging Face

Which?

cardiffnlp/twitterroberta-base-sent iment

Twitter has a mix of noisy text and formal text

Parameters

Emotion Recognition & Sentiment Analysis

Output

Positive Neutral Negative

	Sentiment Value	User Rating	User Rating * Sentiment Value
Positive	2		
Neutral	1	1 to 5	0.5 to 10
Negative	0.5		

MinMaxScaler

EDA SENTIMENT RATING & USER RATINGS

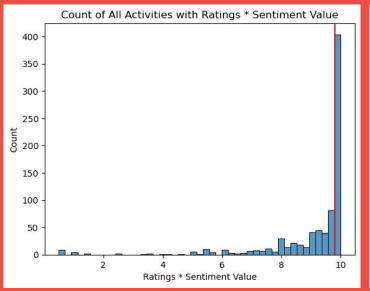

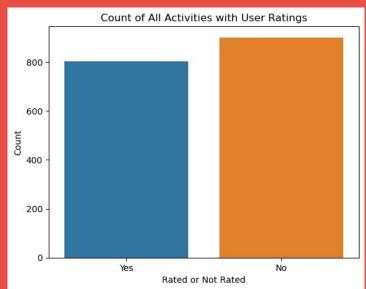

EDA OVERALL RATINGS ON ACTIVITY

• Only 47% of Activities has reviews

Dog Mountain Snowshoeing And Photography Tour

Read More

Recommender is able to give an accurate recommendation based on user selection of categories of activities

Recommender

Feature Engineered Ratings and Reviews into the Model

LIMITATIONS & RECOMMENDATIONS

Getting more user reviews and rating → Transform to a hybrid recommender

Expand the recommender to existing users

Scale up to have user-based recommendation

Scale up to include World Dataset

Ability to set a budget

Ability to set date of travel

Adding in other attributes to have a more inclusive recommender

Expand to an itinerary planner
